There is a rumor that some local business men and manufacturers will file a protest with the proper authorities over the change of arrangements in sending night mail. It was for any and every horse that would present itself at the national horse show grounds from 10 a. m. to 5 p. m. **FINANCIAL AND COMMERCIAL**

**MARKET WAS ACTIVE.**

Response of Austria to the Ancona Note Served as a Stimulant.

New York, Dec. 31.—Appropriately, in the judgment of Wall Street the year came to an end with a marked diminution of the strain on this country's foreign relations. The response of Austria to the Ancona note served as a stimulant to conservative as well as speculative sentiment.

This condition of the market, and constant reflection in the tone of the market, which opened with considerable breadth, strength and activity, gathering momentum with the progress of the session.

For the first time in several weeks the list plainly denoted absorption of an impressive and substantial character, even though some specialties are unduly active.

As for the improved foreign conditions, there were other encouraging developments, such as additional brilliant railway statements, a further advance in refined copper to 23 cents for delivery far into the coming year, and reports from mercantile agencies respecting the promising business outlook of the steel industry, suffice to say that demand is so far in excess of supply as to cause concern among contractors now engaged in large domestic undertakings.

United States Steel led the movement throughout, repeating its recent high price of \$9 1/2 to 2 point advance for 10 3/4 at 24 1/2 a new high record, and California Petroleum common and preferred, which rumor associated with Mexican in a proposed merger also were active at material gains.

Metal shares held their own in point of prominence, American Smelting leading that group on its advance of 4 1/4 to 138 3/4, while Ancon's copper rose 2 1/4 to 91 3/4 a fraction under its record. War stocks were at higher levels and Mercantile Marine preferred also ranked among the leaders.

St. Paul was the outstanding feature of the rails, recording a gain of 3 1/4 at 101 1/8 with advances of one to three points in other issues of the same class. Erie was also notably strong, likewise other trunk lines and coalers. Total sales amounted to 930,000 shares.

Among the more remarkable railway returns for November were New York Central, that system showing a gain in net of \$3,738,000; Northern Pacific with a net increase of \$1,452,000 and Chesapeake and Ohio, which showed an increase of \$579,000. The Reading company increased its surplus by \$95,000.

Bonds naturally responded to the strength of stocks, even the Anglo-French issues hardening. Total sales (par value) aggregated \$5,635,000.

U. S. bonds were unchanged on call during the week.

**New Rectory Arrives.**

The Rev. J. W. Areson of Claymont, Delaware, has arrived in town and is being entertained by Mr. and Mrs. Raymond V. Congdon.

Conasting is especially fine, as the top crust is firm enough to hold a sled, but the hills have not been worn much. Catching a tow from the driveway of sleighs seems a more pleasing occupation.

Joseph Verbinski has returned to his home in Norwich after a few days' stay here with relatives.
